Trade-marks Journal

2018-05-30 — Vol. 65 No. 3318

Canada

Trade-marks Journal

Vol. 65 No. 3318

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

APPLICANT AND REPRESENTATIVE FOR SERVICE

Applicant
TELETRAC, INC., 7391 Lincoln Way, Garden Grove, CA 92841, UNITED STATES OF AMERICA

Representative for Service
FASKEN MARTINEAU DUMOULIN LLP
800, PLACE VICTORIA, BUREAU 3700, C.P. 242, MONTREAL, QUEBEC, H4Z1E9

TRADEMARK

TELETRAC

Goods

Telecommunications apparatus, namely, radio transmitters, transceivers, receivers and antennas for communicating with vehicles, vehicle drivers, fleet vehicle drivers, and fleet managers; global positioning system, namely, receivers, and related computer software and hardware for use in vehicle and fleet vehicle navigating, locating, tracking, monitoring, management, and diagnostics; computer software and hardware for use in diagnosing vehicle, driver and fleet vehicle performance, namely, fuel consumption, operation and idling time; computer software and hardware for safety purposes, namely, diagnosing performance of driver, vehicle and fleet vehicle operating data; computer software for detecting, assessing, classifying, diagnosing, analyzing vehicle location, make, type, status, and maintenance and hardware for use in monitoring and diagnosing vehicle driver behavior and compliance with traffic laws and regulations; computer software and hardware for use in vehicle and fleet vehicle management, supply chain management, insurance telematics, fuel tax compliance, third party vendor interface, and environmental compliance, through the functionality of tracking and compiling statistics, generating reports and graphs, displaying visual information dashboards, plotting the location of vehicles and assets on maps, telemetry monitoring, alerting and record-keeping for vehicles, and providing wired and wireless digital messaging services; computer software and hardware for use in monitoring and diagnosing vehicular traffic and vehicular instructions, namely engine performance and status, traffic location, directional and speed information, fault codes, and vehicle operating data; computer software and hardware for use in processing driver time logs; computer software and hardware for use in monitoring and tracking vehicular shipment of goods; computer software and hardware for use in locating and tracking stolen vehicles; electronic instruments for immobilizing vehicles remotely.

SERVICES

(1) Commercial fleet tracking services, namely, electronic locating tracking, locating and monitoring of vehicles

(2) Software as a service (SAAS) featuring software for vehicle and fleet vehicle management, namely, monitoring, tracking, and navigating vehicles and fleet vehicles; software as a service (SAAS) featuring software for vehicle and fleet vehicle management, namely, diagnostics of vehicle performance data, driver performance data, and driver behavior

(3) Vehicle location services, namely, monitoring vehicle security systems, electronic tracking of vehicle location for safety purposes, and notification of the proper law enforcement personnel of the vehicle locations for safety purposes

CLAIMS

Used in CANADA since at least as early as December 31, 2005 on goods and on services. Priority Filing Date: UNITED STATES OF AMERICA July 29, 2014, Application No: 86350863 in association with the same kind of goods and in association with the same kind of services. Used in UNITED STATES OF AMERICA on goods and on services. Registered in or for UNITED STATES OF AMERICA on March 10, 2015 under No. 4,699,449 on goods and on services

Goods

blank compact discs, blank DVDs, blank digital video and audio discs, blank laser discs, blank hard discs; computer software, namely, computer software for use in image processing, image analysis and interpretation, computer operating systems and computer hardware; computer peripherals, namely, computer terminals, computer monitors, computer display screens, TV monitors, computer mice; electronic vehicle safety systems, namely, on-board vehicle surveillance systems for monitoring vehicle operator (land, sea, air), and machine operator fatigue and distraction; machines incorporating digital and laser scanners for use in optical character recognition; digital photo optical systems; communications apparatus and equipment, namely, audio speakers and microphones; mobile computing and communication devices, namely, mobile phones, smart phones, personal digital assistants (PDAs), e-book readers, tablet phones, tablet computers, mobile computers and parts; accessories for mobile phones, smart phones, personal digital assistants (PDAs), e-book readers, tablet phones, tablet computers, mobile computers, namely, chargers, cases, straps, holders, and screen protectors; computer software for analyzing data from audio and video recorders for use in the field of vehicle operator (land, sea, air), and machine operator risk and safety management; electrical apparatus, namely, on-board vehicle and machine surveillance systems for monitoring and assessing fatigue, alertness, attentiveness, distraction, concentration and performance of vehicle operators (land, sea, air) and machine operators; electrical apparatus, namely, on-board vehicle and machine surveillance systems for monitoring and assessing physiological characteristics of vehicle operators (land, sea, and air) and machine operators; electrical apparatus, namely, on-board vehicle and machine surveillance systems for monitoring and assessing eyelid closure, eye movements, pupillometry, head pose and orientation, gaze or focal point(s), facial expressions and vital signs of vehicle operators (land, sea, and air), and machine operators; computer software for analyzing physiological data in the field of vehicle operator (land, sea, air), and machine operator risk and safety management; cameras; video apparatus, namely, video receivers, interface circuits for video cameras, on-board vehicular and machine video cameras; electric and electronic video surveillance installations; alarms for the notification of vehicle operator (land, sea, air), and machine operator fatigue and distraction; face recognition apparatus; apparatus for tracking directional eye movement, pupil dilation and contraction, eyelid movement, gaze or focal point fixation, facial expressions; sensors, namely electronic sensors for monitoring fatigue, awareness, distraction and performance of vehicle operators (land, sea, air), and machine operators; computer software for detecting, monitoring, measuring, analyzing, compiling data on the performance, awareness, distraction, drowsiness, fatigue and physiological characteristics exhibited by vehicle operators (land, sea, air), and machine operators; computer software for detecting, monitoring, measuring, analyzing, compiling data, and reporting on eyelid closure, eye movements, pupillometry, head pose and orientation, gaze or focal point(s), facial expressions and vital signs of vehicle operators (land, sea, air), and machine operators; computer software for use in database management and for managing information acquired from on-board vehicle surveillance systems for monitoring vehicle operator and machine operator fatigue and distraction; computer databases for use in the safety performance assessment of vehicle operators (land, sea and air) and machine operators; computer hardware, computer software and computer databases for use in monitoring vehicle (land, sea or air) and machine operator safety and behavior, and commercial vehicle fleets; computer hardware, computer software and computer databases for use in analyzing workplace and jobsite safety; computer hardware, computer software and computer databases for use in analyzing eyelid closure, eye movements, pupillometry, head pose and orientation, gaze or focal point(s), facial expressions and vital signs of vehicle operators (land, sea, air), and machine operators; safety equipment and apparatus, namely, safety belts for vehicle operators, seat belts and safety harnesses; safety belts for vehicle operators, seat belts and safety harnesses all for industrial, commercial and private use; safety headgear, namely, visors, goggles, spectacles, glasses, protective helmets for vehicle operators, caps, hats, earplugs, face masks, hair nets, balaclavas; safety spectacles; clothing for protecting the safety of vehicle operators (land, sea and air) and machine operators, namely, pants, trousers, shorts, jackets, t-shirts, shirts, polo shirts, sweaters, sweatshirts, coveralls, overalls, jeans, boiler suits, body warmers, aprons, fleeces, ties; footwear for protecting the safety of vehicle operators (land, sea and air) and machine operators, namely, boots, socks, shoes, athletic shoes; downloadable electronic publications in the field of vehicle operator (land, sea, air), and machine operator safety; databases containing electronic publications in the field of vehicle operator (land, sea, air), and machine operator safety

SERVICES

scientific and technological services, namely scientific research and design in the field of image processing, analysis and interpretation; industrial analysis and research services in the field of image processing, computer hardware and software; design and development of computer hardware and software; computer system design; design of computer databases; development and design of computer software, including safety software; development of computer software application solutions; development for others of computer software and hardware for measuring, monitoring, recording, tracking, assessing or reporting the physiological characteristics exhibited by the operator of a vehicle (land, sea or air) or of other plant and equipment or for the users of displays for vehicles (land, sea, air), or other plant and equipment; development for others of computer software and hardware for measuring, monitoring, recording, tracking, assessing or reporting operator fatigue, alertness, attentiveness, distraction or concentration; development for others of computer software and hardware in the fields of vehicle (land, sea or air) operator and plant or equipment operator safety and risk management and assessment; development for others of computer software and hardware that records vehicle (land, sea or air) operator performance and behavior for review; development for others of computer software and hardware that records equipment operator performance and behavior; providing user access to online non-downloadable computer software for use in processing data and information, namely, analyzing audio, video, text and digital data received from electrical apparatus for monitoring and assessing fatigue, alertness, attentiveness, distraction, concentration and performance of vehicle operators (land, sea, air) and machine operators; providing user access to online non-downloadable computer software for assessing eyelid closure, eye movements, pupillometry, head pose and orientation, gaze or focal point(s), facial expressions and vital signs of vehicle operators (land, sea, air), and machine operators; providing user access to online non-downloadable software for users to access information and data on vehicle operator (land, sea, air) and machine operator behavior, vehicle (land, sea, air) and machine operation, and manage, administer, modify and control data collection parameters of electrical apparatuses and computers for monitoring and assessing fatigue, alertness, attentiveness, distraction, concentration and performance of vehicle operators (land, sea, air) and machine operators; diagnosis of faults in computer software; testing of computer installations; testing of computer programs; updating of computer software; installation and maintenance of computer software; electronic storage of vehicle operator (land, sea, air) and machine operator behavioral data; cloud computing providing software for database management; cloud computing providing software for data analysis of vehicle operator (land, sea, air) and machine operator behavior; computer software consultancy services; consultancy in the design, development and management of computer databases; computer programming consultancy; technical support services in the form of troubleshooting computer hardware, software and computer peripheral problems; technical support services in the form of computer software installation, repair and maintenance; computer system analysis; consultancy in the design and development of computer software; computer software consultancy services for the development, implementation, and use of computer software used to analyze and assess physiological characteristics of vehicle operators (land, sea, air) and machine operators; computer software consultancy services for the development, implementation and use of computer software for monitoring and assessing fatigue, alertness, attentiveness, distraction, concentration and performance of vehicle operators (land, sea, air) and machine operators; computer consulting services in the fields of vehicle (land, sea or air) or plant and equipment operator performance or the performance of users of displays for vehicles (land, sea, air) or other plant and equipment; computer software consultancy in the fields of detecting, monitoring, measuring, analyzing, compiling data, reporting or measuring the eyelid closure, eye movements, pupillometry, head pose and orientation, gaze or focal point(s), facial expressions and vital signs of vehicle operators (land, sea, air), and machine operators; hosting online databases for others; hosting computer sites (web sites); creating and maintaining web sites for others; development of computer networks for others; hosting of databases of safety information for risk safety assessment and establishing safety behaviors and risk indexes for operators of vehicles and other plant and equipment; hosting of web sites featuring technology that allows users to enter, access and use information and generate reports for use in consulting with businesses; hosting of web sites in the field of risk management; hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, in the fields of vehicle fleet monitoring services, vehicle operator or other plant and equipment operator safety and risk management; hosting, managing, developing, analyzing, and maintaining applications, software, and web sites in the fields of workplace and jobsite safety; hosting, managing, developing, analyzing, and maintaining applications, software, and web sites in the fields of operational safety risk events, including events related to the performance of operators of vehicles (land, sea or air) or other plant and equipment or the users of displays for vehicles (land, sea, air), or other plant and equipment; hosting, managing, developing, analyzing, and maintaining applications, software, and web sites in the fields of measuring, monitoring, recording, tracking, assessing or reporting the physiological characteristics exhibited by the operators vehicles (land, sea or air) or other plant and equipment or the users of displays for vehicles (land, sea, air) or other plant and equipment; hosting, managing, developing, analyzing, and maintaining applications, software, and web sites in the fields of measuring, monitoring, recording, tracking, assessing or reporting the fatigue, alertness, attentiveness, distraction concentration or performance of an operator of vehicles (land, sea, air) and their displays or other plant and equipment and their displays; hosting, managing, developing, analyzing, and maintaining applications, software, and web sites in the fields of eyelid closure, eye movements, pupillometry, head pose and orientation, gaze or focal point(s), facial expressions and vital signs of an operator of a vehicle (land, sea or air) or other plant and equipment, or the users of displays for vehicles (land, sea, air) or other plant and equipment; hosting, managing, developing, analyzing, and maintaining applications, software, and web sites in the fields of eyelid closure or orientation of equipment operators head and gaze direction; computer services, namely, hosting an interactive web site that allows users to upload, store and manage online records and receive safety alerts; computer services, namely, hosting an online administrative portal for users to view data on vehicle operator (land, sea, air) and machine operator safety collected from electrical apparatuses that monitor and assess fatigue, alertness, attentiveness, distraction, concentration and performance; computer services, namely, hosting an online administrative portal for users to view data on physiological characteristics of vehicle operator (land, sea, air) and machine operators collected from electrical apparatuses that monitoring and assess fatigue, alertness, attentiveness, distraction, concentration and performance; creating, hosting and maintaining a website that features non-downloadable computer software for reviewing data on vehicle operator (land, sea, air) and machine operator safety and generating scientific reports and scientific information on vehicle operator (land, sea, air) and machine operator safety; creating and hosting a website featuring technology in the nature of an online non-downloadable software that enables users to generate audit and compliance reports from data collected from mobile or other devices related to the performance of vehicle and equipment operators or to the physiological characteristics exhibited by vehicle operators (land, sea, air) and machine operators; digital imaging services (digitization and scanning of images); image processing software design; scanning of documents; image data transfer and conversion from one media to another; research in the field of software for data processing; research in the field of vehicle operator (land, sea, air) and machine operator safety technology; medical research (scientific research for medical purposes); research in the field of vehicle (land, sea or air) operator behavior and habits; research in the field of vehicle operator (land, sea, air) and machine operator safety; providing information, including online, in the field of risk identification and assessment, technological developments and safety management in the field of vehicle operator (land, sea, air) and machine operator safety; conducting of feasibility studies; conducting market surveys for others; assessment and evaluation of safety risks and safety management of vehicle operators (land, sea, and air) and machine operators; safety performance testing in the field of vehicle operator (land, sea and air) and machine operator safety; consultancy in the field of occupational health and safety (ergonomics and design); technical diagnostic testing services of electrical apparatuses used for monitoring and assessing fatigue, alertness, attentiveness, distraction, concentration and performance of vehicle operators (land, sea, air) and machine operators; advisory services in the field of vehicle operator (land, sea, air) and machine operator safety; technical data analysis, namely, analysis of risks and safety management in the field of vehicle operator (land, sea, air) and machine operator safety; consultancy in relation to designing and conducting scientific research projects in the field of vehicle operator (land, sea, and air) and machine operator safety; technological consultation services in the field of vehicle operator (land, sea, air) and machine operator safety; accident investigation (engineering or forensic science services); preparing technical reports in the field of computer software design and development; preparing reports on risk identification and assessment , technological developments, and safety management in the field of vehicle of vehicle operator (land, sea, air) and machine operator safety; technical surveying; management of scientific research projects in the field of vehicle operator (land, sea, air) and machine operator safety; preparation of statistics for scientific research in the field of vehicle operator (land, sea, air) and machine operator safety; rental of cameras and on-board vehicular surveillance systems for monitoring and assessing fatigue, alertness, attentiveness, distraction, concentration and performance of vehicle operators (land, sea, air) and machine operators; rental of computers, computer hardware and computer peripherals; rental of electric and electronic video surveillance installations; vehicle fleet monitoring services in the field of vehicle operator safety; design and development of electric and electronic video surveillance installations; design of on-board vehicle and machine surveillance installations; design consultancy in the field of on-board vehicle and machine surveillance installations; design and development of on-board vehicle and machine surveillance installations; design of on-board vehicle and machine surveillance installations and associated computer software; design of land vehicle parts

Goods

pre-recorded software video games on CD-ROMs, digital video discs, and cartridges for console and individual, portable gaming systems; pre-recorded software video games that are downloadable from a remote computer site; computer game instruction manuals and published guides containing suggestions on how to play the computer games. apparatus for recording, transmission or reproduction of sound or images, namely netbooks; pre-recorded video discs featuring computer games; compact discs, DVDs and pre-recorded videos featuring computer games; calculators, data processing equipment, namely couplers; computers; audiovisual teaching apparatus, namely slide and photograph projectors; camcorders; photographic cameras; cassette players; compact disc players; computer keyboards; computer hardware; computer operating programs; Computer peripheral devices, namely computer mouses, computer tablets, barcode readers, computer scanners, computer webcams, computer monitors, LCD projectors, unrecorded USB drives, computer modems; downloadable image files containing photographic images and artwork, text, games; downloadable music files; downloadable ring tones for mobile phones; DVD players; downloadable electronic publications in the nature of websites, e-books, online magazines, online newspapers, electronic journals, blogs, and podcasts in the field of computer and video games; eyewear, namely imitation eyeglasses and sunglasses; eye glasses; exposed photographic film; headphones; printed holograms; juke boxes, musical; laptop computers; laptop bags; microphones; baby monitors; battery performance monitors; computer monitors; mouse pads; mobile phone accessories and charms, namely danglers for mobile phones; notebook computers; blank optical discs; personal stereos; portable media players, namely MP3 players; portable telephones; mobile phone covers; record players; sound recording apparatus, namely digital audio recorders; sound reproduction apparatus, namely radio receivers, turntables, audio speakers; sound transmitting apparatus, namely radios, personal FM transmitters, audio transmitters; spectacle cases; spectacle frames; sunglasses; summer glasses; tape-recorders; teaching apparatus, namely electronic teaching equipment in the nature of computers, multimedia projectors, computer whiteboards; telephone apparatus, namely mobile phones, cordless phones, telephone headsets, telephone modems, telephone terminals, telephones, mobile phone accessory charms; television apparatus for projection purposes, namely televisions sets, television monitors, television screens, television cameras, television stands, television streaming boxes, remote controllers for televisions; blank USB flash drives; blank video cassettes; prerecorded video cassettes featuring computer games; cases for mobile phones and tablets; radios incorporating alarm clocks; clothing, namely men's and women's 1940's fashion; clothing, namely, character costumes, onesies, shorts, ties, scarves, sportswear, bathrobes, lingerie, aprons, bandanas, bath robes, bathing caps, bathing suits, bathing trunks, beachwear, beach shoes, belts, bibs for babies, made of cloth and plastic, footwear, namely boots, headwear, namely hats, bandanas, caps, ear muffs, headbands, berets, paper hats, shower caps, toques, visors; coats, dresses, dressing gowns, nightwear, nightshirts, football boots, gloves, jackets, jumpers, pullovers, masquerade costumes, money belts, neckties, overalls, overcoats, pajamas, pants, sandals, sarongs, shirts, short-sleeve shirts, ski boots, ski gloves, skirts, sleep masks, slips, socks, soles for footwear, stockings, suits, namely men's suits, sun visors, sweaters, sweatshirts, swimwear, swimsuits, tee-shirts, tights, trousers, under garments, underpants, underwear, uniforms, namely, military-style, vests, waistcoats, wristbands; footwear, namely shoes, boots, slippers, sandals, beach footwear; Hallowe'en costumes; hosiery; applications featuring computer games; computer game software for video and computer games, namely computer games and software for creating and modifying games; Compact discs featuring video and computer games; computer game programs, namely computer games and software for creating and modifying games; pre-recorded computer programs, featuring video games; computer programs featuring video games; pre-recorded computer software, featuring video games; optical discs featuring computer games; video game cartridges; computer game software, namely computer games and software for creating and modifying games; computer game entertainment software, namely computer games and software for creating and modifying games; downloadable electronic game software for use on mobile phones, tablets and other electronic mobile devices,namely computer games and software for creating and modifying games; video game software, namely, video games and software for creating and modifying games; interactive multimedia computer game programs, namely computer games and software for creating and modifying games; games software for use on mobile phones, tablets and other electronic mobile devices, namely computer games and software for creating and modifying games; downloadable computer software for mobile phones, tablets and other electronic mobile devices in the field of social media for the creation and exchange of user-generated content, marketing research, and also for transmission of electronic communications and also for posting advertisements; downloadable software in the nature of a mobile application for use in the field of social media for the creation and exchange of user-generated content, marketing research, and also for transmission of electronic communications and also for posting advertisements; computer applications featuring video and computer games; computer application software for mobile phones, portable media players, tablets, handheld computers and other electronic mobile devices namely, video and computer games and software for creating and modifying video and computer games; locks and watches; cuff links and tie clips; jewelry and imitation jewelry; address books and diaries; comic books; computer game instruction manuals; notebooks; posters; stickers; beer mugs; beverageware; coffee cups, tea cups and mugs; glass beverageware; plates, namely dishes and plates; shot glasses; action board games; jigsaw and manipulative puzzles; playing cards; cigarette lighter holders

CERTIFICATION MARK

CCDP

Certification Mark Text

The certification mark is intended to certify that the services provided by authorized persons meet the standards and procedures set by the Applicant involving a competency-based, recognition of prior learning (RPL)-based certification model, namely, 3 years of full-time employment in the career development field within the last 5 years (approximately 5400 hours) and the completion of the certification process which consists of: 1. Completing an application form (copy attached) setting out prior learning activities and/or credentials and providing two references, who will each need to complete a Reference form (copy attached) indicating how the candidate rates according to six competencies as described in the Applicant's Core Competency Profile (copy attached); 2. Completing a Work Experience Package form (copy attached) which confirms that the candidate meets the prerequisites and ensures that the candidate has the depth and breadth of career development experience to complete the process; 3. Attending an Ethics Webinar; 4. Paying an application fee; 5. Completing a confidential, proprietary Structured Interview with a Primary Assessor, which is then reviewed by a Secondary Assessor; 6. Completing a confidential, proprietary Certification exam to test knowledge in career development best practices, theory and ethics. A sheet summarizing the Applicant's Steps to Certification is attached. The Applicant may change the aforesaid standards and procedures from time to time. The applicant is not engaged in the manufacture, sale, leasing or hiring of goods or the performance of services such as those in association with which the certification mark is used.

SERVICES

advising, coaching, counseling and career development support services to assist clients to help define and manage career and personal development directions and goals, make life and career decisions, identify and select education and training options to fulfil life and career goals, achieve balance between work and life, transition to and between work experiences, improve personal satisfaction by matching people and careers, and find employment

Goods

Class 09

(1) Computer hardware with embedded bi-directional software used to monitor, transmit, record, and analyse body data, namely, body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation and vital signs such as heart rate and breathing, and environmental data, namely, weather, precipitation, sun intensity, pollution and noise, and to transmit instructions for actuation adjustments in response; downloadable mobile application software used to monitor, transmit, record, and analyse body data, namely, body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation and vital signs such as heart rate and breathing, and environmental data, namely, weather, precipitation, sun intensity, pollution and noise, and to transmit instructions for actuation adjustments in response.

Class 10

(2) Knee braces and compression garments for athletic or other non-medical use, namely, arm sleeves, elbow sleeves, and leg sleeves, all with sensors that measure body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation, vital signs such as heart rate and breathing, and that measure environment such as weather, precipitation, sun intensity, pollution and noise, and that actuate to adjust in response.

Class 12

(3) Upholstery for vehicles, vehicle seat coverings, seatbelt accessories, steering wheel covers, all with sensors that measure body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation, vital signs such as heart rate and breathing, and that measure environment such as weather, precipitation, sun intensity, pollution and noise, and that actuate to adjust in response.

Class 18

(4) Back packs with sensors that measure body temperature, gait analysis and steps taken, posture and that measure environment such as weather, precipitation, sun intensity, pollution and noise, and that actuate to adjust in response.

Class 24

(5) Pillow cases, bed sheets, mattress covers, sleeping bags, upholstery fabrics, and curtains, all with sensors that measure body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation, vital signs such as heart rate and breathing, and that measure environment such as weather, precipitation, sun intensity, pollution and noise, and that actuate to adjust in response.

Class 25

(6) Clothing, namely, t-shirts, shirts, tank tops, pants, leggings, shorts, underwear, bras, swimwear, socks, bodysuits, tights, jackets, coats, vests, warm-up suits, skirts, dresses and ponchos, all with sensors that measure body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation, vital signs such as heart rate and breathing, and that measure environment such as weather, precipitation, sun intensity, pollution and noise, and that actuate to adjust in response; headwear, namely, hats, caps, toques, hoods, visors, headbands, bandanas, and balaclavas, all with sensors that measure body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation, vital signs such as heart rate and breathing, and that measure environment such as weather, precipitation, sun intensity, pollution and noise, and that actuate to adjust in response; footwear, namely, shoes and insoles, all with sensors that measure body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation, vital signs such as heart rate and breathing, and that measure environment such as weather, precipitation, sun intensity, pollution and noise, and that actuate to adjust in response; clothing accessories, namely, belts, scarves, shawls, arm warmers, leg warmers, mittens, and gloves, all with sensors that measure body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation, vital signs such as heart rate and breathing, and that measure environment such as weather, precipitation, sun intensity, pollution and noise, and that actuate to adjust in response.

Class 27

(7) Floor mats all with sensors that measure body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation, vital signs such as heart rate and breathing, and that measure environment such as weather, precipitation, sun intensity, pollution and noise, and that actuate to adjust in response.

SERVICES

Class 38

(1) Electronic transmission and retrieval of body data, namely, body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation and vital signs

such as heart rate and breathing, and environmental data, namely, weather, precipitation, sun intensity, pollution and noise, and to transmit instructions for actuation adjustments in response, over a global computer network.

Class 42

(2) Providing software as a service to monitor, transmit, record, and analyse body data, namely, body temperature, hydration, movement and muscles, gait analysis and steps taken, posture, oxygen saturation and vital signs such as heart rate and breathing, and environmental data, namely, weather, precipitation, sun intensity, pollution and noise, and to transmit instructions for actuation adjustments in response.
